**SCHOOL PROFILE**

**SCHOOL**
Cardinal Newman School, Buenos Aires, Argentina

**AREA**
Cardinal Newman is situated in San Isidro, on the north of the Buenos Aires province, 30 kilometres from Buenos Aires City. The school campus is divided into primary and secondary sections with a main hall used by all the school as an entrance and also for some events for the whole community. The sports area has four rugby fields, a gymnasium, an underground gymnasium, and four basketball courts. The building also has chemistry and physics labs, music and technology rooms, a biology lab, one library for each section, a small theatre/auditorium and a big dinning room. There is also a nice chapel available for everyone.

**STUDENTS**
Our 1200 students are boys from 6 to 18 years old. Many of our students are sons of former pupils.

**SCHOOL OVERVIEW**
The Christian Brothers opened the school in 1948 at Belgrano Ave. in Buenos Aires City, and by 1971, when the number of students grew the school moved to its current location in San Isidro.

In our way to communal development we are always trying to find a better way to collaborate in the educational process of our students. That’s why we have our *Carta Magna* (Essential Elements Declaration) that includes 6 axis as a guidance. Actually there’s a group of community members that are rethinking it inspired by the needs of our community.

Our 6 axis that guide us in educating our pupils and growing as a community are:
- Feed our Faith, the spirituality of the Heart and the Gospel values
- Promote teamwork in all the Newman Community
- Look for development in teaching and learning
- Create a solidarity community
- Inspire transforming leadership
- Devotion to the Virgin Mary
**HOW IS CARDINAL NEWMAN TRYING TO LIVE THE EDMUND RICE VISION?**

All members of our community (students, parents, former pupils and staff) are actively involved in service and pastoral care activities. We take part in:

- Immersion experiences to Peru, Bolivia, India and Zambia
- Spiritual Retreats
- Affective Communication Workshops

We have also a solidarity group called Solidarity Edmund Rice (S.E.R.) that involves building solidarity with the poor. Some of our activities include visits to homes for children, activities with people with special abilities and visits to homeless people. Annually we have a two week mission trip to a small village of our country with last year's students, former pupils, staff members and groups of students from CBC Fe y Alegria (Perú) and CBC Stella Maris (Uruguay).

**WHAT IS EXCITING ABOUT BEING PART OF EREBB?**

Being part of a network where Edmund Rice’s charism is in the centre is very exciting for us. It is great to develop a sense of community and share experiences and knowledge within the network.

We would like to grow in our relationship with others schools of the network.
